Lamb Survival Workshops

Struan
Millicent
Melrose
Clare

Reduce lamb losses and lift marking percentages with practical, on-farm strategies you can apply this season.

This hands-on workshop is designed for producers who want to identify the causes of lamb mortality and make targeted improvements that deliver real results.

Sessions:

South East with Ashlee Wachtel, Dr Sean McGrath and Dr David Oswald

- June 3rd - Struan Research Centre
- June 4th - Millicent Showgrounds

Northern with Deb Scammell and Dr Jack Coffey

- June 10th - Melrose Showgrounds
- June 11th - Clare Showgrounds

What you'll learn:

- Feeding for survival
 - Key nutritional drivers of lamb survival
 - Common mistakes and how to avoid them
- Paddock selection
 - How paddock choice impacts lambing outcomes
 - Practical criteria for better decision-making
- Investigating lamb mortalities
 - What to look for in the paddock
 - Turning observations into actionable learnings
